

# Volunteer Opportunities

## **November to February – Winter Night Watch**

This program feeds our homeless and near-homeless population Monday through Friday during the winter months. We take 2-3 trucks out on a route in the evenings between 5 and 8pm and need 2 volunteers to serve on each truck.

## **March/April – Pack the Pantry**

This is a food drive done with our Burrows Center to restock the community pantry. Several volunteers are needed to organize and load food into the pantry. Typically a 3-hour commitment.

## **Spring – Spring Cleaning**

These events are done on various TSA campuses. These are great opportunities for large-group volunteering. Pulling weeds, painting walls, and general cleaning are the tasks associated with this. The time commitment varies by location and task.

## **June through August – Kids Cruisin' Kitchen**

This program resembles the Winter Night Watch in its need for volunteers and the general tasks they'll be doing. KCK feeds area children during the summer when school is not in session. 2-3 trucks go throughout the metro Monday through Friday serving lunch. This activity typically requires a full day commitment.

## **July through early August – Backpack Assembly & Distribution**

In July our volunteers help sort school supplies and pack backpacks for area students. August is when we distribute these backpacks. Lots of volunteers are needed from start to finish. We typically ask for a 2-hour commitment.

## **November – Turkeyfest**

Volunteers help prepare meals and/or deliver meals to homebound seniors. This takes place on Thanksgiving Day itself where we also need volunteers to help navigate traffic and hand out the addresses and meals to the drivers. The prep work is done the day before.

## **November & December – Bell Ringing at Red Kettles**

Red kettle donations help ensure that we can provide services throughout the next year. We have multiple locations throughout the metro. We know it's a cold activity! Some locations have indoor ringing available
